Graves Medical Transcription is growing, and we are eager to help with your transcription needs!

Web Tech Services will provide this space for their website customer of the month.

Website Pick

Greetings!

Web Tech Services would like to provide our customers with information that may help you with your computer or website. We feel this information will make you more confident with your computer and give you some marketing ideas about your website. Feel free to [email us](#) with information you may want to see here.

Since this is my first e-newsletter, all customers are added. You may unsubscribe at the bottom and thank you for your patience and support.

Website Marketing

Web Tech Services can certainly help you with getting your website up and running. But there are some things to help "get the word out" about your website.

Did you know you can list your website for free on business directories such as peoria.com. Every town seems to have one. Just Google business directory free and see what you come up with. Also, make sure you always have your website address on your signature line. When cruising forums or sending messages, have it ready!

Driving people to your website is important both online and offline. Promote it anyway you can!

The Drive-by Virus

A drive-by download is a process where simply visiting a particular malicious website using a vulnerable system can cause a piece of malware to be downloaded and possibly installed on that system. The best protection is awareness and responsible surfing:

- only visit sites you trust
- regularly update your browser and anti-virus applications

[The Subservient Chicken](#)

I have no idea how they do this but Buger King offers you to tell the chicken to dance, kick, whatever. Be kind to him.

- consider not accepting to run controls on web sites
- disable plug-ins from your browser.

To disable plug-ins in Internet Explorer 7, click on Tools > Manage Add-ons > Enable or disable Add-ons and then choose which you want to run or not.

New XP Computers

Not ready for Vista? You can still get new computers with Windows XP at the Web Tech Services store.

Desktops, Laptops and laptop minis are available. Refurbished computers are also available if you would like to keep the kids off yours!

Prices start at \$599 for new
Prices start at \$199 for used

Ask Chris to custom build you something cool. Gaming, clear and pink cases are here in the store.
