Dear Tammy,

I know you all like the computer tips portion of this newsletter. I am going to try something different this time and pick a program in which to provide the tips. This month it's Google. I hope you find it helpful.

Don't forget, if you are stuck working with a program, Web Tech Services provides training at \$60 per hour. I will come to you! You can learn how to attach files to email, scan pictures or add video to your power point presentations. Call Tammy at 309-699-9327 to schedule some one-on-one training time.

Thanks again for your support and encouragement - tf

Your Website and Marketing

I can't stress enough how important it is to market your website both online and offline. There are many ways to do this and most important is have your website on your stationary, signs, business cards, flyers and marketing material. The other of course is your email signature, and social networks.

Going to a mailed newsletter to an online Constant Contact newsletter was wonderful. We can be creative and mail to many people without the fear of our correspondence flagged as SPAM. This can actually cause your email address to be blocked. We encourage our customers to use Constant Contact for your newsletters. You can click the link below to sign up OR have Web Tech add it to your hosting package for just \$50 per month (up to 500 email addresses).

We will even create the newsletter for you, keep track of your database and provide detailed monthly reports. All you provide is a Word document with the information.

Computer Tips

Tips from Google. Since it's back to school time, here is how Google can "help" with homework.

**Save
\$20**

Virus & Adware ridden computers are our specialty. Is your computer slow or just won't turn on? Clip this coupon and bring it to Web Tech Services at 619 Taylor Street, East Peoria, IL for a FREE computer diagnosis. Not valid with any other offers.
